ATTACK ON CHILD ABUSE

During the past year or so, the public has been made increasingly aware of a disturbing phenomenon called the batteredby doctors and social workers as a general term for physical abuse of small children, suggests the nature and severity of a problem that deserves widespread concern.

There has been an alarming increase in the number of cases of child-beating that have come to attention. POPE PAUL VI AND SENATOR FULBRIGHT The one good thing about Senator Fulbright's recent speech on foreign policy was its insistence that this country must break with the rigid formulas of the nineteen fifties. But there are two possible choices in this business of breaking. One, idvocated by Fulbright himself, would be to soften our demands upon Khrushchev and Castro. The other would be to move swiftly toward maximum exploitation of Khrushchev's current troubles, which are indeed so terrifying to the Kremlin that a detente very much to the advantage of the West is possible

In the present situation, Pope Paul VI has sensed the opportunity where Fulbright has in-gloriously muffed it. The Vatican's stiffening attitude has not only been signalled in speeches. It has also been expressed in the advice that has gone from Rome to Cardinal Mindszenty, the Primate of Hungary who is a virtual prisoner inside the walls of the American Legation in Buda-

Just prior to Khrushchev's visit to Budapest the Kadar government of Hungary entertained great hopes of ridding itself of the thorny presence of Cardinal Mindszenty. The Cardinal has always refused to leave the American Legation in Budapest for Rome unless certain conditions are met. Number one is that he be allowed to return, at least for a brief period, to his ecclesiastical seat of Esztergom. Condition Number Two is that he be allowed to name his successor at Esztergom before going to Rome to occupy a higher" ecclesiastical post. Three is that he be rehabilitated, not amnestied. (To accept an amnesty, in his opinion, would be to admit treasonable activity.) Four is that the Catholic, the Protestant and the Jewish seminaries in Hungary be permitted to select their students without supervision of the political state. And Number Five score of campaigns, the enemy shells on a is that the five bishoprics presently standing vanot by "government" men.

The Kadar government has apparently seen fit to give in on a couple of the points at issue. Cardinal Mindszenty would be allowed to return The death of General of the Army to Esztergom for an interval before accepting the Vatican's offer of a place in Rome, and the point about rehabilitation as against amnesty would be at last reports over the replacement of bishops. It was disposed to give two of the vacated bishop-The name MacArthur immediately brings rics to Cardinal Mindszenty men. The rest it insisted on reserving for itself. And it still insisted political surveillance of the seminaries.

It was at this point in the Mindszenty-Kadar stand-off that the Papal Undersecretary for Extraordinary Ecclesiastical Affairs, Augustino Casatieless, open collar, who in the darkest days roli, conveyed Pope Paul VI's message to Cardinal Mindszenty. 'You are on your own," said the Pope,

"nobody will try to influence you."

So the matter rests. But Cardinal Mindszenty, "on his own," is understood to be upping his own Yet MacArthur had already completed 38 Conditions. He is refusing specifically to endorse Bishop Endre Hamvas, the government's own candidate to succeed him at Esztergom. GEN. MacARTHUR: DEEDS LIVE ON The old soldier is gone, slipped into the shadows of history. What the rigors of a score of campaigns, the enemy shells on a dozen battlefields, the dangers and demands of three wars failed to do, the remorseless hand of time has accomplished.

The death of General of the Army Douglas MacArthur is mourned not only by

Then came World War II, and as if he had not lived and done enough to fill the lives of any number of men, MacArthur's contribution to history was far from ended with the signing of the peace. It is to Mac-Arthur, who as occupation commander virtually wrote the postwar Japanese constitution himself, that the Japanese owe their present democracy and the spectacular re- child may be given a glycerine suppository or a age of totalitarianism.

ATTACK ON CHILD ABUSE

During the past year or so, the public has been made increasingly aware of a disturbing phenomenon called the batteredchild syndrome. This graphic phrase, used by doctors and social workers as a general term for physical abuse of small children, suggests the nature and severity of a problem that deserves widespread concern.

There has been an alarming increase in the number of cases of child-beating that have come to attention. Some experts believe that this reflects more awareness of the problem, and consequently more identification of such cases as abuse rather than accident. Others think there has been an actual rise in the number of incidents. Whatever the explanation, many more cases are being reported than in the past.

'These Days'

POPE PAUL VI AND SENATOR FULBRIGHT The one good thing about Senator Fulbright's recent speech on foreign policy was its insistence that this country must break with the rigid formulas of the nineteen fifties. But there are two possible choices in this business of breaking. One, advocated by Fulbright himself, would be to soften our demands upon Khrushchev and Castro. The other would be to move swiftly toward maximum exploitation of Khrushchev's current troubles, which are indeed so terrifying to the Kremlin that a detente very much to the advantage of

the West is possible. In the present situation, Pope Paul VI has sensed the opportunity where Fulbright has in-gloriously muffed it. The Vatican's stiffening attitude has not only been signalled in speeches. It has also been expressed in the advice that has gone from Rome to Cardinal Mindszenty, the Primate of Hungary who is a virtual prisoner inside the walls of the American Legation in Buda-

Just prior to Khrushchev's visit to Budapest the Kadar government of Hungary entertained great hopes of ridding itself of the thorny presence of Cardinal Mindszenty. The Cardinal has always refused to leave the American Legation in Budapest for Rome unless certain conditions are met. Number one is that he be allowed to return, at least for a brief period, to his ecclesiastical seat of Esztergom. Condition Number Two is that he be allowed to name his successor at Esztergom before going to Rome to occupy a 'higher" ecclesiastical post. Three is that he be rehabilitated, not amnestied. (To accept an amnesty, in his opinion, would be to admit treasonactivity.) Four is that the Catholic, the Protestant and the Jewish seminaries in Hungary be permitted to select their students without supervision of the political state. And Number Five is that the five bishoprics presently standing va-cant shall be filled with the Cardinal's own choices, "government" men.

The Kadar government has apparently seen fit to give in on a couple of the points at issue. Cardinal Mindszenty would be allowed to return to Esztergom for an interval before accepting the Vatican's offer of a place in Rome, and the point about rehabilitation as against amnesty would be his countrymen but by millions the world granted. But the government was still boggling at last reports over the replacement of bishops. The name MacArthur immediately brings rics to Cardinal Mindszenty men. The rest it insisted on reserving for itself. And it still insisted

'nobody will try to influence you. So the matter rests. But Cardinal Mindszenty, 'on his own," is understood to be upping his own conditions. He is refusing specifically to endorse Yet MacArthur had already completed 38 Bishop Endre Hamvas, the government's own can- In attempting to build better didate to succeed him at Esztergom. In World War I, although a brigadier put any pressure on Cardinal Mindszenty should lost on the White House in Washington, where Catholic opinion must be respected as a condition that could affect the vote in November. But the religious aspect should be considered less important to President Lyndon Johnson than the common sense aspect of Pope Paul VI's policy. By the time the war clouds were gather

Goldberg, a Jew, told the American Jewish Conference on Soviet Jewry in Washington

IRS Lists Common Items That Delay

District Director Edward J. Fitzgerald, Jr. of the Albany Internal Revenue Service pointed out today that the surest way to get special attention from the IRS is to file an "imperfect" return. However, this special attention has no benefits: just more delay and additional cost for everyone.

He pointed out six common items that delay the processing of returns. They are (1) failure to attach W-2 form, (2) no signatures, (3) tax information not readable, (4) failure to list dependents and exemptions, (5) failure to total deductions, (6) failure to list Social Security

What happens when the taxpayer forgets one of the above? Fitzgerald said the return must be specially processed and any refund will be delayed. If the taxpayer calls or writes about while she is on vacation.
